(31:05 TS) 7:30 PM Public Hearing: Beth Lonergan (#2023-14) 278 Northwest Main Street

Date of Application: 8/16/2023

Decision Date for Variance: 100 Days of Application (11/24/2023)

This was posted in the town hall and advertised in the Telegram and Gazette and the variance is for a road frontage and lot area relief under dimensional regulations under appendix B to build a single-family home in an RA district. Margaret Bacon with Civil Site Engineering representing the applicants for an existing vacant wooded lot that is pre-existing, non-conforming and only has 24K square feet and not the required 90k square feet and the frontage is only 100 feet and 200 feet. The house being proposed can fit within the zoning setbacks and there has been perk tests done. The Board stated that the highway department sent a comment via email about concerns with the drainage. Ms. Bacon stated that she was not aware of the issues and concerns and would like to go out to the site when it is raining to see what is happening and try to come up with something to prevent the problem. The Board discussed continuing the public hearing and let Ms. Bacon meet with the highway superintendent to discuss the issues and resolutions. The highway department stated in the email that there is already a water and drainage issue there and they want to make sure this project will not contribute to the problem. The residents at 250 Northwest Main Street stated that they have already gone through the town with this issue and that nothing has ever been done to mitigate the problem.

Jen Couture sent the Board the new postage rates to see if the Board wanted to update their department fees to coincide with the USPS rates.
