3. **Next Meeting:** 9/11/17
4. **Adjourn:**

Resource Room Audio Repair and Upgrade FY18

The Resource Room is our premiere meeting room capture station, with (3) remote controlled cameras and (5) table microphones, a single recording assistant can digitally record the video and audio of any meeting.

Issue: Recently, the audio mixer has been tricky for recording assistants to work with, and we have had resident complaints via the Selectmen about the state of the audio in the Resource Room.

Problem: Audio mixer is from 2009 and having issues, old connectors, old wires and cables between components, failing microphone snake, multiple signal splits with no signal amplification, needs a general tune-up.

Resolution: Purchase new wiring and some components to essentially replace existing audio rack infrastructure. Once approved, these items will be ordered and installed ASAP to get this system back into proper shape. I will be doing more testing on the live portion of the audio once I get the signal properly routed through the new equipment to track any issues on that end. We have discussed the need for this already at prior meetings, and have budgeted specifically for this to happen in FY18.
