Water System Shutdown

Dear Resident/Business Owner:

The City/Town is upgrading the water system in your area.

In order to establish a new water system, we will need to do a temporary water system shutdown.

Water will be shut down on **Thursday June 19**

From the hours of **9:00** am thru **1:00** pm

Please draw enough water and/or have bottled water to sustain you through this time frame.

If you have any questions or concerns, please contact our Site Foreman, **Sam Partyka at 508-819-7149.**

We apologize for any inconvenience that this may cause.

Thank you!
